

**New From Speedway Motors
Dual carb to 4 barrel manifold adapter.**

Our adapter allows you to mount any Stromberg "97"[™] or Holley "94" three bolt carb to the small 4v (WCFB) ---Carter AFB---or the Holley 4 barrel carb intake manifold. We designed this adapter with the carbs spread apart enough to be able to use the Holley 94 style carbs. It also will let you bolt it to any 4 barrel intake except the spreadbore(quadrajets). Change your four barrel car to a real Hot Rod with dual carbs. You can also use these to turn a dual four barrel intake into a 4x2 inline which.
