Tie Rod End Adjusters Item # 2104

Kit Includes: (2) Tie rod adjusters, (2) right hand jam nuts and (2) left hand jam nuts.

The tie rod adjuster uses left and right hand threads to make easy on-car adjustments. A small notch is machined into one end of the adjuster; this signifies a left hand thread. The end with out the notch is the right hand thread. When installing, the outer tie rod end uses the right hand thread and the inner tie rod end uses the left hand thread. The left hand jam nut will either have notches in it to signify left hand thread or be supplied in a gold color while the right hand nut will be silver.
