

1970-1981 GM 2nd Gen F-Body Heater Delete Panel
Item # 2650

1. Remove A/C unit from engine bay of vehicle, being sure to note location and retain all factory hardware.
2. Install UMI P/N 2650 and retain with factory hardware in the hardware's original location. If P/N 2650 does not sit flat, you may need to bend the flange on the firewall with Vise Grips or an adjustable wrench.
3. After verifying fitment, if so desired, you may apply a thin layer of RTV to seal the panel to the firewall. Otherwise, the installation is complete. If using RTV, tighten fasteners gently to compress the RTV then final tighten when RTV is cured.

Thank you for putting your trust in a UMI Performance product!
