

450-185G

ED ISKENDERIAN RACING CAMS

Installation Instructions for Iskenderian P/N 185-G Single springs.

Install with all stock hardware components.

Installed Height should be between 1.900-2.000" for best results.
In most cases, installed height with stock hardware and no shim
Will yield 2.000" height.

BLOCK

If your ~~cylinder head~~ yields a considerably higher installed height
Then 2.000", use our # 404 spring shims which are .060" thick.
A set comes with 16 PCs. And racer net price is \$ 14.00 per set.
