

INSTALLATION INSTRUCTIONS

Part Number 33-2054

This filter fits: See current K&N® catalog for complete listing

FREE K&N DECAL To register your warranty, please see us online at knfilters.com/register. FREE K&N DECAL

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the K&N® Air Filter.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION

- 1) Remove the stock airfilter.
- 2) Position the plastic cage onto the filter element as shown below.
- 3) Slide the K&N® Air Filter/cage assembly into the airbox. Make sure that it is properly seated on the sealing surface.
- 4) Close the access door of the airbox.
- 5) To remove the filter assembly, gently pull on the filter material until the assembly is free to slide out.

CAUTION - Use only gentle finger pressure to remove the filter. Do not use any tools or the filter material might be damaged.

These instructions must be followed every time the filter is serviced, otherwise the filter may not seal, and damage to the engine could result.
