

INSTALLATION INSTRUCTIONS

Part Number E-0787

This filter fits: See current catalog for applications

FREE K&N DECAL** To register your warranty, please see us online at knfilters.com/register. **FREE K&N DECAL

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this air filter will last 1 million miles or more. This air filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

1. Un-fasten air box clamps.
2. Remove the air box lid from the vehicle.
3. Remove the stock air filter. (See Fig. 1)
4. Wipe out any dirt or dust that may be inside the air filter housing.
5. Install the K&N® air filter into the air box base. Make sure the contour of the air filter clears the ribs inside the air box (See Fig. 2).
6. Press around the edges of the air filter to ensure that it is properly sealed.
7. Re-install the air box lid and re-fasten the air box clamps.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
