Congratulations, you have purchased the finest air filter money can buy. With proper care this air filter can last many seasons. This air filter is a direct replacement for the stock air filter and no modifications will be required. However, the following procedure MUST be followed to ensure a proper fit and seal of the air filter.

1. Remove the stock air filter.
2. With a damp cloth, clean the air cleaner assembly of any dust or debris.
3. Apply the provided K&N Sealing Grease in between the seal bumps on the base of the K&N Filtercharger®. (Fig. and Fig. 2)
4. Install the K&N Filtercharger® into the air cleaner assembly.
5. Reinstall the stock air cleaner cover and tighten the stock bolts.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
