

INSTALLATION INSTRUCTIONS

Part Number KA-7504

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

INSTALLATION

1. Remove the air box lid.
2. Remove the stock screw that holds on the top plate and remove the top plate. (Fig. 1)
Note: You will not reuse this top plate.
3. Remove the stock foam air filter from the cage. (Fig. 2)
4. Clean the air filter sealing surface in the air box.
5. Apply a liberal amount of the provided K&N Sealing Grease around the inner sealing groove of the stock air filter cage. (Fig. 3)
6. Install the K&N Filtercharger® onto the stock air filter cage. (Fig. 4)
Note: Do not install the stock foam air filter on the K&N Filtercharger®.
7. Install the provided washer onto the stock screw.
8. Tighten screw completely. (Fig. 5)
9. Reinstall air box lid.

Available to purchase separately

Precharger Wrap; KA-7504PK

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
