

INSTALLATION INSTRUCTIONS

Part Number SU-1284

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

INSTALLATION

1. Remove the stock air filter.
2. Carefully clean the front and back of the air box.
3. Install the provided large gasket to the front of the air box where the K&N Air Filter will be sealing.
4. Install the provided small gasket to the back of the air box.
5. Install the K&N Air Filter into the air box.

NOTE: A light coat of K&N Sealing Grease or equivalent will help with ease of installation.

6. Reinstall the air box lid.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
