

# INSTALLATION INSTRUCTIONS

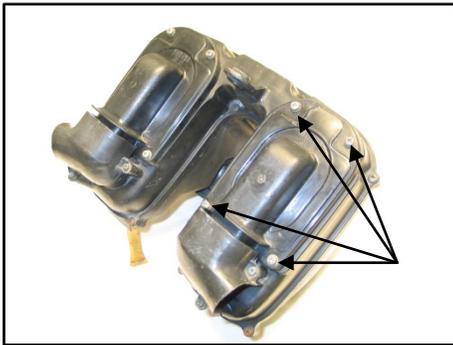

Part Number YA-0075

**This filter fits:** SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. These are specific installation instructions, so please follow the procedures outlined below to ensure the K&N Filter seals properly.

## INSTALLATION

1. Remove the 4 filter retaining screws. (Fig# 1)
2. Carefully remove the original filter from the air box. (Fig# 2)
3. **NOTE:** You will notice the change in design between the YA-0075 and the original Yamaha filter; this is due to the K&N filter being designed to achieve maximum airflow whilst giving optimum engine protection. (Fig# 3)

Fig# 1

Fig# 2

Fig# 3

4. Ensure the supplied seal is fitted into the channel in the filter as shown. (Fig# 4)
5. Fit the K&N filter to the airbox; ensure that the lip on the airbox sits into the channel in the filter. Secure using the 4 original screws (Fig# 5)
6. Repeat instructions 1 to 5 when fitting the second filter to the airbox. (Fig# 6)
