IMPORTANT NOTICE: With all sending units, be sure **NOT** to over tighten, as this could damage the calibration of the unit. Also when installing, use a good thread sealer. The sending unit must be grounded to function properly.

To install in dash, simply drill 3/4" or 1" hole as required for your kit.

INSTALLING WATER TEMP SENDERS: They can be placed in either manifold, cylinder head or water outlet. If there are no holes for sender, just drill and tap a 1/2" NPT hole in a position you prefer. Be sure that the tip of the sender is in the flow of the water coolant.

INSTALLING OIL TEMP. SENDERS: If your car has a cooler, put sender in one of the extra holes, provided in your cooler. If you don't have a cooler, put sender in pan for wet sumps or inline between cooler and motor for cars with dry sump pumps.

INSTALLING OIL AND FUEL PRESSURE SENDERS: Install senders on back of gauge with tee fitting provided. If you have electric gauges you need to install sender on the motor in place that is provided from the factory.

The adjustable oil and fuel pressure senders are adjusted by screwing in the screw in the center of the sender to increase pressure and screwing out to decrease.

WIRING: Connect red wire of warning light to a 12 volt source (fusebox, instrument power, etc.). Connect the black wire of warning light to the supplied wire in the kit, route wire to sending unit, cut length and connect to the sending unit with the supplied terminal connector.

Speedway Motors Inc., P.O. Box 81906
Lincoln, NE 68501 (402) 323-3200

IMPORTANT

DISCLAIMER In an effort to offer our customers the low prices, quick service and great value, Speedway Motors reserves the right to change suppliers, specifications, colors, prices, materials. Each of the previous items is subject to change without notice. Speedway is not responsible for any typographical errors or misinterpretations. Quantities are limited on some items.

WARRANTY DISCLAIMER The purchaser understands and recognizes that racing parts, specialized street rod equipment, and all parts and services sold by Speedway Motors, Inc. are exposed to many and varied conditions due to the manner in which they are installed and used. Speedway Motors, Inc. makes no warranties, either express or implied, including any warranty of merchantability or fitness for a particular purpose other than those contained in its current catalog with respect to the goods identified on the face of the invoice. There is no warranty expressed or implied as to whether the goods sold hereby will protect purchaser or ultimate user of such goods from injury or death. Speedway Motors assumes no liability after this period.

DAMAGE CLAIMS Always inspect your package upon delivery. Inspect all packages in the presence of the delivery driver. The driver must note any damage. Ask the driver the Carrier's procedures for handling damage claims. You must hold the original box, packing material and damaged merchandise for inspection or the carrier will not honor the claim. Notify Speedway Motors customer service department for instructions on returning damaged goods. Speedway is not responsible if no notification is given within 5 days of receipt.

SHORTAGES Always check the contents of your delivery to insure all the parts that you ordered were received. Please read the invoice. Double check all packing materials, small items may be wrapped inside with these products. Shortages may occur from damage to the box, so save all packing materials. Inspect the box for holes that would allow parts to fall out. If you are missing any item(s) be sure to check your invoice for back orders or canceled items before calling the customer service department. If Speedway has to split a shipment into multiple boxes, packages may be delivered on different days. You need to contact the customer service department within 5 days of delivery to assure the prompt replacement. Speedway Motors assumes no liability after this period.
