## Front Shock and Headlight Mount Kit

- 1) Raise vehicle and place jack stands under frame.
- 2) Use jack or jack stands to support front axle assembly.

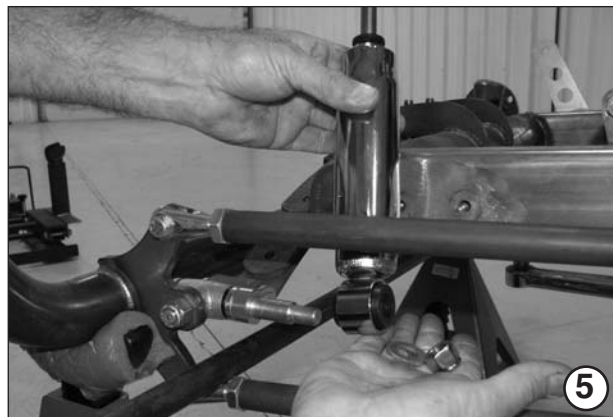

- 3) Remove standard leaf spring shackle and replace with the shock mount shackle in the kit. The shock stud side of the shackle is inserted into the spring pivot, **not** the spring eye. Repeat on the other side of the vehicle.
- 4) Raise vehicle and remove jack stands from under frame. Place jack stands under front axle and lower jack to allow vehicle to compress spring to normal ride height.

5) Lightly coat the lower shock stud with petroleum jelly, and install shock on stud. Secure with washer and locknut. NOTE: If your lower shock eye is supplied with a metal bushing it must be removed to allow the shock to be installed on the 5/8" shock stud.

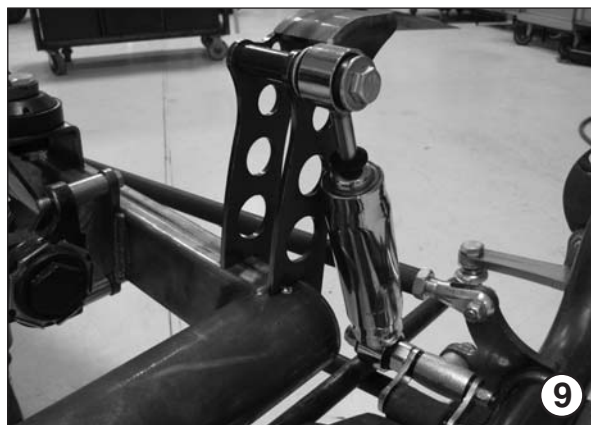

6) Position upper shock / heading mount bracket on frame rail. Determine which shock mount hole best suits your particular application.

7) Secure the threaded bushing into the shock mount in the desired location using the button head cap screw in the AFT side of the shock mount. Install the upper shock bolt, washers, and spacer onto the front side of the shock mount bracket. Hand tight only.

8) Make sure that the upper shock mount bracket sits squarely on the frame rail. Double check alignment of the shock. Clamp bracket in place and tack weld.

9) Check stock travel and suspension movement, look closely for interference with any moving suspension or steering components. If all is satisfactory, finish weld brackets to frame and tighten all fasteners to recommended torque.

## **DAMAGE CLAIMS**

Always inspect your package upon delivery. Inspect all packages in the presence of the delivery driver. The driver must note any damage. Ask the driver the Carrier's procedures for handling damage claims. You must hold the original box, packing material and damaged merchandise for inspection or the carrier will not honor the claim. Notify Speedway Motors customer service department for instructions on returning damaged goods. Speedway is not responsible if no notification is given within 5 days of receipt.

## **SHORTAGES**

Always check the contents of your delivery to insure all the parts that you ordered were received. Please read the invoice. Double check all packing materials, small items may be wrapped inside with these products. Shortages may occur from damage to the box, so save all packing materials. Inspect the box for holes that would allow parts to fall out. If you are missing any item(s) be sure to check your invoice for back orders or canceled items before calling the customer service department. If Speedway has to split a shipment into multiple boxes, packages may be delivered on different days. You need to contact the customer service department within 5 days of delivery to assure the prompt replacement. Speedway Motors assumes no liability after this period.

## **REFUSALS**

All refused COD customers will be billed a 15% restocking charge plus freight to and from the destination! If you have questions please contact Speedway's customer service department.
