'41-'48 CHEVY TAIL LIGHT ASSEMBLY

1. **DISCONNECT BATTERY.**

Use caution when working with the wiring leads of the new LED array. If they are shorted or connected improperly permanent damage may occur.

2. Remove old taillights from vehicle, disconnect existing wiring.
3. Install provided taillight to body gasket on taillight assembly.
4. Pass provided wiring leads through center hole and position taillight assembly on body. Align mounting studs with existing holes and secure with supplied nuts.

NOTE: The taillight housing is grounded to the body by the mounting studs. Remove any paint or corrosion around the stud holes on the nut side to provide a clean ground. If mounting the taillights on a non-metallic surface a good chassis ground wire must be attached to one of the housing mount studs to provide a suitable ground circuit for the LED array.

5. Repeat for the other side of vehicle.
6. Connect wiring as follows: BLACK – TAIL LIGHTS
GREEN – STOP/TURN
WHITE – GROUND
7. Reconnect battery and perform functional test of taillight. If the taillight and stop light function properly, but the turn signal does not flash properly, you must replace your existing flasher unit with an LED compatible flasher unit. After determining the requirements of your particular system, select one of the following flasher units:
910-64110 LED FLASHER - 2 prong
910-64112 LED FLASHER - 3 prong
910-64114 LED FLASHER - 5 prong

IMPORTANT

DISCLAIMER In an effort to offer our customers the low prices, quick service and great value, Speedway Motors reserves the right to change suppliers, specifications, colors, prices, materials. Each of the previous items is subject to change without notice. Speedway is not responsible for any typographical errors or misinterpretations. Quantities are limited on some items.

WARRANTY DISCLAIMER The purchaser understands and recognizes that racing parts, specialized street rod equipment, and all parts and services sold by Speedway Motors, Inc. are exposed to many and varied conditions due to the manner in which they are installed and used. Speedway Motors, Inc. makes no warranties, either express or implied, including any warranty of merchantability or fitness for a particular purpose other than those contained in its current catalog with respect to the goods identified on the face of the invoice. There is no warranty expressed or implied as to whether the goods sold hereby will protect purchaser or ultimate user of such goods from injury or death. Speedway Motors assumes no liability after this period.

DAMAGE CLAIMS Always inspect your package upon delivery. Inspect all packages in the presence of the delivery driver. The driver must note any damage. Ask the driver the Carrier's procedures for handling damage claims. You must hold the original box, packing material and damaged merchandise for inspection or the carrier will not honor the claim. Notify Speedway Motors customer service department for instructions on returning damaged goods. Speedway is not responsible if no notification is given within 5 days of receipt.

SHORTAGES Always check the contents of your delivery to insure all the parts that you ordered were received. Please read the invoice. Double check all packing materials, small items may be wrapped inside with these products. Shortages may occur from damage to the box, so save all packing materials. Inspect the box for holes that would allow parts to fall out. If you are missing any item(s) be sure to check your invoice for back orders or canceled items before calling the customer service department. If Speedway has to split a shipment into multiple boxes, packages may be delivered on different days. You need to contact the customer service department within 5 days of delivery to assure the prompt replacement. Speedway Motors assumes no liability after this period.
