## GLUE DADDY™

Patent Pending

Tired of custom panels coming loose in the summer heat, headliners falling down, loose/sagging carpeting, etc.? This high retention forced, low profiled clip can be the solution to your problems.

Some typical surfaces our Glue Daddy is used on:

- PVC Board
- Cardboard
- ABS Plastic
- Carpeting

Possible ways of attaching fastener:

- Glued (super glue, hot glue, epoxy, etc.)
- Sewn (Thin string of metal, Yawn)
- Stapled

## Low Set-up Height
