

# Mustang II Track Widths for Brake/Rotor/A-Arm Options

## (measured hub to hub)

	Stock Track Width	Extended Track Width (using 2" rack extension kit)
<b>OEM brakes:</b>		
Stock length arms	56.5"	60"
Narrowed arms / OEM brakes	55.25"	58.75"
<b>Brake kit using Granada rotors:</b>		
Stock length arms	57.5"	61"
Narrowed arms / Ford brakes	56.25"	59.75"
<b>Brake kit using 1969-72 GM rotor:</b>		
Stock length arms	58.5"	62"
Narrowed arms / Chevy brakes	57.25"	60.75"
<b>Wilwood brake kit:</b>		
Stock length arms	58"	61.5"
Narrowed arms / Wilwood brakes	56.75"	60.25"

**Note:** Standard wheel base is 56-1/2" with a 60" version available for trucks. The various options for brake kits will vary this somewhat and some kits can add roughly 2" to the overall track width. Narrowed arms are available to move the wheel in by 5/8" each side.
