SPORTSMAN™ ELITE GAUGES & PANELS

Sportsman Elite Gauges take the traditional Sportsman gauge to the next level by incorporating our trusted SMi™ technology into this new mechanical gauge. This gauge eliminates the need for external warning lights, allowing for less extra wiring and maintenance. The new Sportsman Elite Gauges come with the warning lights built in for added convenience. Once the gauge reaches the warning desired by the sending unit, the gauge changes to the correct warning color. The gauge has a bright white background with a red needle that makes it extremely easy to read. This new gauge is legal in all forms of motorsports and classes. **Gauges require warning sensors sold separately. Pressure gauges require a gauge line kit sold separately.**

"STEPPER MOTOR" SMI™

4.5" MEMORY TACHS

- SMI™ AccuTech™ 4.5" Memory Tach.
- LED back light shows through the dial face and the pointer is LED illuminated to make this the easiest tach to read.
- High RPM Warning light: 2 stage. First warning can be set for just over your normal maximum RPM, the second stage at the
- redline. You get a warning of too many revs before you blow an engine.
- Maximum RPM recall.
- Can also be used as a 2 stage shift light.
- 52-44410 'Stepper Motor' Tachometer Filter required with "HEI Style Ignitions".

DLi™ DATA LOGGING

4" STEPPER MOTOR TACHS

- DLi™ Tach: better than only 3 or 4 highs and lows.
- See all the highs and lows to closely analyze RPM changes.
- Records RPM all around the track. Replay in the pits.
- Playback can be real time, 1/2 speed, or double to see a full lap quickly.
- You can record multiple sessions or just highest RPM if that's all you need.
- Multi-stage progressive shift light for precision shift points or a pit road speed indicator.
- The 2 stage high RPM warning light will help prevent over-revving expensive motors.
- The numbers are LED backlit and the pointer is illuminated for easy reading.
